## Ministries:

**Sunday AM Worship Service:** We believe that it is important to provide an opportunity for people to come together for worship. We provide a casual, come as you are, atmosphere where anyone is welcome regardless of where they are in their journey of faith. The service features modern worship, relevant teaching, and opportunities for fellowship and prayer.

**Wednesday Adult Classes:** Join us on Wednesday evenings at 6:30 PM for adult elective classes that help people engage in fellowship and discussions on life and faith using large-group instruction and small-group discussion. Youth and children ministries are available during these classes as well.

**Life Groups:** Life Groups are a critical portion of our ministry philosophy at Neighborhood Church. They are a place where individuals can develop meaningful relationships and give and receive encouragement through prayer, relevant discussion, and mutual support. Life Groups take place both on our church campus and within our local community.

## Ministry Philosophy:

We strive to keep spiritual growth strategic and simple. We build all of our ministry activities upon four specific spiritual growth environments. The boxes below describe the purpose of each environment. We encourage each person to be involved in at least 3 environments to enhance their spiritual growth.
